Are you going to be saying the same thing when your ass is in lock up being charged with a felony, or are you going to be bawling into your jacket sleeves realizing your life is over?

You don't think cunts like ANTIFA and BLM know about this site and watch it? You don't think a particularly unhinged one would infiltrate and brandish a weapon and start firing it to bust the whole thing up? What if Trump comes out and talks?

You seriously sound like a fucking psycho. Trump isn't going to call on YOU to defend the country. No one would. The military isn't going to ask YOU to join their platoon so you can HALO jump from a C130 and do Splinter Cell ops to stop all the communists trying to usurp the country.

This isn't a fucking game. Stop acting like it is. It's not a joke. It's not a party. Most people that want to bring weapons are a fucking LIABILITY and will most likely get the person next to them killed. You're not part of a real militia. People bring weapons, and the chances of people being seriously hurt/die rise exponentially. You get ANYWHERE near the steps of Congress, you will be shot and you will be killed. They have snipers on the fucking roofs all over that place for that specific reason. Guys who have REAL training. not just playing CoD.

Get it through your head; you're not a hard ass. You're not the one to save the Republic. You're not Solid fucking Snake. You're an untrained civilian with a deadly weapon in hand who is telling other people to go to the seat of government where there is a ban on all guns, armed.

Live in reality, little dude. You'd be the first to fall if shit went down.

And it's not. As long as you comply with the current regulations in the capitol of the country. You need a CCW and license that is provided by the city of DC. If you don't have that, you don't carry. If you do without it, then you're committing a felony and if you don't think they'll find you, arrest you, charge you, prosecute you, and convict you, you got another thing coming.

You want to throw your life away? There's a time for armed conflict. But we're not there yet and this isn't the hill to die on. Don't throw away your future because you have pent up aggression.

Be smart. You don't demand laws be upheld while on the same hand, break them when they don't suit you.

You either observe all laws, or none. You don't pick and choose.

I'll overlook the 1 'psycho' comment this once on top of these 'call of duty' and game references to say this, ; just because this may be either a protest come the sixth or a victory party,, just because it's DC doesn't invalidate your right for self-protection, and ANTIFA/BLM is bringing all the riot gear they can buy to try to hurt us.

All i'm saying is, we need SOME WAY to stop them from doing that, because I doubt anyone wants repeats of the denver/portland incident where innocent people died and their deaths celebrated. If we can push them back, fine, but they're going to ramp up their efforts, and it may happen again, and we ALL don't want that happening.

I'll leave it at that, if we're done with the circular firing squad. We're supposed to lift each other up, not divide one another.

I may have come across as terse. My apologies. There have been FLOODS of people demanding that people be lined up and shot. Or that we invoke Martial Law and start executing people and now we have people that demand weapons be brought in the capitol.

It looks bad. Really bad. We have to use our heads. We cannot demand that laws be upheld when we're choosing to ignore/break them when they don't suit us. You either follow the law, or you don't.

This is a serious thing. Bringing weapons into the capitol. That's an auto 5 years and felony conviction. There may come a time for armed conflict, but I don't think this is the time. This isn't the hill to die on.

This also plays into the enemies hands since this would be a valid reason to shut the city down and mass arrest/kick out everyone. And if the protest is infiltrated and some ANTIFA/BLM starts popping shots, the cops will get real edgy and might open fire. They wouldn't be as itchy if people were unarmed.

Again, apologies if I came off as overly aggressive. With the level of wanton calls of violence, I firmly believe that there are some that literally just want to kill people and they see this as their avenue to achieve that goal. I'm not saying you, but I get the feeling there are some on here.

People are going to do what they're going to do. I'm not telling anyone to do anything. If they want to bring guns in, that's on them. But there are very real consequences that come with that. Think really hard before acting.

i myself will concede that I got overtaken by fear of what's happened in the past with the Million Maga March gatherings and posted based on that, and for such, I apologize too.

I'm still of the idea that innocent marchers SHOULD be protected, but it's not worth the paddywagon, I agree. We need cooler solutions, a compromise to this.

If you're going armed into D.C., it better be for something stronger and more permanent than a protest. There wasn't a single shot fired at the Boston Tea Party. Many of you have no concept of what point in history you're in right now. The time for shooting may be coming, but it ain't here yet. And if you think it is, then put on your big girl panties, stop saying you're going to "protest" and call your trip to D.C. what it really is, armed insurrection.

And if that's your aim, quit being cunts and whining about checkpoints and smuggling guns in on the metro or sneaking them into your hotel room and just march on D.C. in full battle gear.

Maybe this sounds familiar?

That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness. Prudence, indeed, will dictate that Governments long established should not be changed for light and transient causes; and accordingly all experience hath shewn, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same Object evinces a design to reduce them under absolute Despotism, it is their right, it is their duty, to throw off such Government, and to provide new Guards for their future security.--Such has been the patient sufferance of these Colonies; and such is now the necessity which constrains them to alter their former Systems of Government.

... I don't think we care anymore about violence being blamed on trump supporters. If that's the only language the courts speak, I'm honestly all for it at this point.

Checkpoints? Maryland, Virginia, and DC governments are going to lock down the entire city. No flights, no mass transit, no bridges. We'll be breaking ordinances and laws just trying to get to Constitution Avenue. And if y'all are right, and literally only glows are advocating for armed protests, directly compared to the Richmond protests, then the checkpoints were inevitable.

I'm only in this for a peaceful protest. The Constitution acknowledges that we the people have the right "peaceably to assemble" also... "to petition the Government for a redress of grievances"

Our forefathers were brilliant as they laid out the Law Of The Land. It is KEY to stay within the boundaries set forth by the Constitution.

Supreme Court ruled the constitution doesn't matter anymore since you can just break it and no one else has standing

The Supreme Court doesn't get to decide if the Constitution is valid or not. The point of the matter is this: We gotta make a choice to stand by the Constitution, regardless of when other people follow it or not.

We gotta be the ones that maintain the fiber of the Law Of The Land.

The Second Amendment is part of the Constitution. Nothing more American than being armed at a peaceful protest.

But go ahead. Bring firearms to capitol. See how far you get. Try not cry to the point of hyperventilation when they charge your ass with a felony. And they WILL charge you. And they WILL catch you.

The government disobeying the constitution, and inflicting widespread economic damage is psychopathic. Do you honestly think people will be rational after the last few years of this trash? unfortunately pacifism isn't working, and the result is what you see above.
